We'll ensure our homes are kept safe by successfully checking all gas appliances in your home once a year.

22,692 of our homes require an annual gas service. 74 had not been serviced in the last 12 months. This is primarily a result of customers not allowing access but we have also been impacted by high levels of engineer absence caused by Covid self-isolation rules. Our teams are working hard to get to these remaining homes as soon as possible
