

Job Description

Employer – JTC Kitchens

Vacancy – Factory Operative

Working pattern and contracted hours – Monday – Thursday 8am – 4.30pm

Number of vacancies - 1

Job Summary

The Factory Operative will play an essential role in maintaining the quality, efficiency, and safety of our production processes. This hands-on position is ideal for a proactive and reliable individual with a strong work ethic.

Working at JTC Kitchens, the role will involve:

- Putting deliveries of components into racking/storage areas.
- Picking orders/components.
- Rigid unit assembly (after completing training).
- Dealing with customers when collecting orders.
- Admin- printing off picking lists/delivery tickets.
-

This is an active role in a warehouse environment, and relies on a strong ability to follow health & safety guidelines.

Essential skills, experience and qualifications

We're not looking for experience, we'll provide that 'on the job', but we do want to hear from candidates who have a willingness to learn and take part in all required training.

We are looking for some who:

- Has a positive attitude and ability to take initiative.
- Ability to work effectively and supportively as a member of the staff team.
- Reliable, trustworthy and punctual
- Comfortable with repetitive tasks and physical work
- Confident to do, or learn manual handling and lifting techniques
- Strong awareness and understanding of health and safety in the workplace
- You need to be able to work independently and as part of a team and work in a professional manner at all times.
